

# Traditional Dancing

The warrior tribe, as the Tswana's are known, were mighty and fierce in their battles on the plains of Africa, using their dramatic tribal dance as a means to instil fear in the hearts of their enemies! Unlike the warrior men in the tribe, the Tswana women danced to show joy and love and when men and women came together they told a beautiful story....

Experience this incredible display of power and passion as you share their journey through a colourful cultural dance!
