

Game Drives

The twice daily safari excursions, one at dawn and one at dusk give you the opportunity to explore the 75,000 hectare wilderness reserve at your own pace. With all of Africa's Big Five (Elephant, Lion, Rhino, Leopard and Buffalo) present in the reserve, as well as an abundance of both bird life, general plains game, endangered Wild Dogs and Cheetah, there is seldom a dull moment!

Mid-morning and Sunset refreshment breaks offer a variety of delectable treats and beverages for you to enjoy out in the wilderness, before continuing on your exciting adventure in discovery of what awaits you around the next corner.

As the Summer months present some rainfall, we provide fleece lined ponchos to keep you dry and warm, whereas the cool chill of the Winter months call for hot water bottles and cozy blankets so you may continue to enjoy your magical safari experiences in comfort.
